F. Financial Bid – 20 Marks

1. The weightage to Technical Qualification and Financial bid would be 80 percent and 20 percent respectively. For this purpose, the highest technical qualification would be awarded 80 marks and the lowest financial bid would be given 20 marks.
2. Technical Qualification Bid: The total marks as follows obtained out of 100 marks in the technical qualification bid shall be scaled down to a maximum of 80 as follows which shall henceforth be the total marks obtained by the bidder against the technical qualification bid:

$$\text{Marks (Max 80) on Technical Qualification Bid (T) =} \\ \frac{\mathbf{80 \times \text{Technical Qualification Bid under evaluation}}}{\mathbf{\text{Highest Technical Qualification Bid}}}$$

3. Financial Bid: The financial bid would be awarded marks out of maximum 20 based on following formula:

$$\text{Marks (max 20) on Fin. Bid (F)=} \\ \frac{\mathbf{20 \times \text{Lowest Financial Bid}}}{\mathbf{\text{Financial Bid under evaluation}}}$$

$$\text{Total Marks} = \mathbf{T+F}$$

4. The bidder scoring Maximum Total Marks would be recommended for selection and called for negotiations.
5. During negotiations the consultant must be prepared to furnish the detail cost breakup and other clarifications to the proposal submitted by him, as may be required to adjudge the reasonableness of his price proposal. If the negotiations with this consultant are successful, the award will be made to him. If negotiations fail, and if it is concluded that the contract with reasonable terms cannot be concluded with this consultant, the consultant with second highest score may be invited for negotiations. This process may be repeated until an agreed contract is concluded.

NOTE-

- Concept design has to be part of technical bid.
- Conceptual Plan should be presented before the Technical Committee on date and time fixed by the client.

Validity of the Proposals

The Proposals submitted by the Consultants must be valid for 180 days from the date of submission without changing the personnel proposed for the assignment and the proposed Price. The **Director, Arts & Culture, Meghalaya** will make its best efforts to select a consultant firm within this Period.

Cost of preparing the Proposal

Cost of preparing a proposal and of negotiating a contract including visit to site, if any, is not reimbursable as direct cost to the assignment.

Commencement of the Assignment

Assuming that the contract can be satisfactorily concluded in two weeks after finalizing the consultant, it is expected that the works shall commence within two weeks.

Conflict of Interest

In case a manufacturing of construction firm is associated with a consultant firm, it will not be eligible for award of construction works at a later point of time.

Taxes etc.

Objectives of the Consultancy

The consultancy services are invited from the reputed and experienced architects / consultants / firms for Appointment of Design & Project Management Consultant for the following projects in the state of Meghalaya:

S. No.	Assignment	Estimated Cost (Rs. Crores)
1	Design & Project Management Consultancy services for setting up of the Tribal Research Institute at Babadam, West Garo Hills District, Meghalaya.	41.86

SCOPE OF WORK

The consultants shall provide full and complete architectural services relating to planning, design of buildings and services etc., that will include but not limited to structural design & drawings, MEP design & drawings, landscape & site planning as well as periodic supervision of the construction work in respect of the development work of TRI.

1. Concept Stage

The Consultant shall:

- a) Take employer's instructions regarding the requirements of the project, hold meetings with the employer regarding the functional requirement of various buildings and services to be provided as per scope of work of this agreement.
- b) Visit the site
- c) Prepare, in agreement with the employer details of facilities to be provided in the buildings. The Consultant shall also prepare the outline details of various services in the like manner.
- d) Examine legislations, codes and standards as applicable.
- e) Prepare preliminary draft sketches and notes sufficient to explain the Architect's general understanding of employer's requirements of the client and outline the plan in the best possible way of fulfilling them.
- f) Discuss the draft sketches and notes with the client and make such modifications as may be necessary to satisfy the client that their requirement will be fulfilled.

2. Preliminary Drawing Stage

The Consultant shall:

- a) Make site evaluation and analysis.
- b) Prepare site plan for services/ facilities The Consultant shall prepare general layout of buildings and all services as per the brief provided by the client. The Consultant shall

also prepare preliminary sketches and designs with drawings but not limited to details of useful areas, services and circulation areas and total plinth areas etc.

- c) Undertake preliminary planning and prepare conceptual design of TRI with due consideration to all internal and external services like but not limited to telecommunication services, water supply, sanitary, sewerage, storm water drainage, landscaping, development plan showing roads, paths, parks, paved areas, compound walls, internal & external lighting, electrical sub-stations, fire fighting, HVAC, pump houses, underground sumps overhead tanks including scope and specifications.
- d) Submit copies of preliminary drawings and conceptual designs as mentioned in paragraph 3.2 & 3.3 for obtaining approval of client, make suitable modifications/ changes as directed by client. Further submit such modified drawings showing details alongwith specifications, sufficient enough to prepare a preliminary estimate of cost for obtaining administrative approval of competent authority.
- e) Submit preliminary estimate in the format, manner and copies as desired by the client. The client shall provide the necessary formats to the architects.
- f) Submit the required number of copies of drawings to local authorities to obtain the approval of the competent authorities / statutory bodies, as necessary according to the local building bye laws, regulations etc. Further make suitable changes as desired by such authorities and re-submit the modified drawings to the authorities / statutory bodies. The above approvals shall include those from any statutory bodies constituted by state/district including Municipal Corporations, specially constituted committees (if any) and local Fire authorities. The client shall provide the necessary list of competent /statutory authorities from where approval shall be obtained.

3. Working Drawings Stage

The Consultant shall:

- a) Prepare specifications, designs, and detailed working drawings not limited to architectural, structural drawings, plumbing services, electrical services, landscaping etc. as per the requirements of the client. The above specifications, design, detailed working drawings shall be modified by the Architect, as per the requirements of the client / site conditions if so desired; in view of structural necessities or for any other reason client considers the same to be necessary.
- b) Prepare detailed estimates alongwith technical specifications, rate analysis as per the latest schedule of rates of the state.
- c) Prepare necessary specifications, designs and detailed working drawings in respect of services, pumps, external water supply, external sanitary and sewerage, storm water drains, landscaping, development plan showing the roads, paths, parks, paved areas, drains, compound walls, internal & external lighting and other

electrical services not limited to sub-stations, pump houses underground sumps, overhead tanks etc. The above specifications, design, detailed working drawings shall be modified by the Architect, as per the requirements of the client / site conditions if so desired; for any reason the client considers to be necessary.

- d) Offer all cooperation to the client for scrutiny of structural design (submitted by the Architects), of buildings and structures by attending meetings and supplying all necessary information in this regard. The Architects shall supply all the designs and drawings relating to all the buildings and structures. The Architects shall incorporate them in their detailed working drawings and full details of the project wherever required for execution and satisfactory completion of the work and for obtaining the approval of the local authorities wherever necessary.

4. Tender Drawings

The Consultant shall:

- a) Prepare detailed BOQ for inviting tenders.
- b) Tender drawings shall be prepared in respect of all disciplines including Architecture design, MEP, Structure, Fire and Life Safety.
- c) Prepare technical specifications indicating applicable codes and standards, Quality Assurance and Quality Control procedures related to materials and processes, execution processes, acceptance standards, tolerances, modes of measurement
- d) NIT & other documentation necessary for tendering process as desired by the client and assist the client in call & award of tenders. The client shall provide necessary formats of the NIT alongwith the analysis of rates.

5. Project Management

The Consultant shall:

- a) Issue working drawings good for constructions of each component of work to the Contractor for execution, properly supervise the works, approval of the materials and workmanship for the works in consultation with Engineer-in-charge.
- b) Administer all the construction works contracts and will ensure that the contractual provisions, whether related to quality or quantities of the work are duly implemented.
- c) Issue of drawings, details as approved by Competent Authority, as contract documents and co-ordination of the individual supervision teams to ensure that technical policies are correctly and consistently implemented on all the construction contracts.
- d) The principal responsibilities of the Consultant will be but will not be limited to, the following:
 - Giving the layout of the work as per the approved drawings.
 - Preparing the Daily, Weekly and Monthly reports and submitting them to the Engineer-in-charge for appraisals and orders in the matter
 - Construction supervision, Project Management, Quality Control and Assurance during the implementation of works.

- Ensure that high quality construction is achieved and all works are executed in full compliance with the Engineering Design, technical specifications and other stipulations of the contract documents and within the specified time.
- To prepare, in consultation with the employer a construction supervision manual defining routines and procedures to be adopted in contract management, construction supervision and administration of the contracts and a maintenance manual for defects liability period and beyond.
- To assist/advise the employer in handing over the sites and in establishing milestones (if any) for completion of contracts
- To prepare in consultation with the employer guidelines to be adopted by the employer during the defect's liability period.
- To verify the list of items and quantities of all items in the BOQ and propose modifications to the same, if necessary, for the approval of the Employer.
- To assist the employer in monitoring the progress of the works and in project implementation through computer aided project management techniques and Management Information Systems (MIS)
- To assist the employer in taking over of completed works from the contractors, in particular by preparing lists of defects to be corrected by the contractors;

6. As built & Completion drawings

The Consultant shall:

- a) Shall prepare as-built drawings including elevations and cross sections etc. the details of the buildings and services as completed and supply duly stamped four sets of completion drawings to the client. Architects shall also hand over the soft copies of such drawings in two sets of CDs.
- b) Submit the required number of copies of drawings to local authorities to obtain the approval of the competent authorities / statutory bodies. The above approvals shall include those from any statutory bodies constituted by state/district including Municipal Corporations, specially constituted committees (if any) and local Fire authorities. The client shall provide the necessary list of competent /statutory authorities from where approval shall be obtained.
